According to the witness examined, Mrs. Murphy gave the young man \$10 on account, and a note promising \$75 more when the affair was over.

It was planned, according to the young man, that he was to shoot the husband last night when the wife left him to go into a drug store to make a purchase.

Recommendation was made that there be no stoppage of immigration. Dr. Copland's ban suggestion resulted from the arrival at the port of New York within the last few days of more than thirty cases of typhus.

Surgeon General Cummings said that even should typhus get into the United States, "there is no reason to fear that it would be followed by epidemic on the same scale as in Europe. So far as known, the disease is spread only by lice."

Wage board of nine members would be empowered to investigate and recommend wages in various lines.

Navy Dep't Has No Report.

(By Associated Press)

Tokio, February 11.—Five American bluejackets were fired at by person unknown at Vladivostok at 11 o'clock Tuesday night, one of them being wounded, says a Asahi Shimbun's Vladivostok correspondent today.

The Americans, reinforced by Russian policemen, arrested three Russian officers formerly under the late General Kappel, once commander of the western armies of the Omsk government, the correspondent adds.

The impression in Vladivostok according to the correspondent is that the attack was arranged by Communists with the object of straining relations between Japan and the United States.

Washington, February 11.—The attack on five American bluejackets at Vladivostok Tuesday announced by the Asahi Shimbun's Tokio had not been reported tonight to the Navy Department. In the absence of an official report, officials refuse to comment.

WE ARE COMING!

—Here is our message to the Starving Millions. WE ARE COMING!!! We hail you with our pledge of assurance that we will not fail. The cry of anguish from mother hearts, the plaintive wail from throats of little children has not fallen upon "Ears that hear not." The picture of your distress does not present itself to "Eyes that see not." We pledge you the compassion of hearts that understand; and understanding cannot deny the meager boon that will give you LIFE. WE ARE COMING!!! Old and young alike. Rich and poor. The rich with their best and the poor with their mite. We are coming from homes that have known poverty to share with you who have a more desperate need, the meager fare which keeps us from actual hunger. We esteem the confidence you repose in

us. We prize your expectancy which leads you to stretch out your hands to us saying, "FAYETTE COUNTY WILL HELP US." We dare not disappoint your hope. The claims of HUMAN BROTHERHOOD hold fast our honor in chains of love, because your needs are so desperate. We have been made to recognize the painful demand for haste and have set a ZERO HOUR for February 12th, 1921, at 9:00 o'clock a. m. at which time we plan to record every man, woman and child in the county with some fitting share in our efforts for your rescue.

—At the earliest possible moment after that ZERO HOUR at 9:00 o'clock Saturday morning we shall start through the regular channels and by the most rapid means available, all that we have gathered of cash and grain for your relief.

MAIL YOUR CHECK TODAY—Every penny you give goes to buy food and medicine for sick and starving war orphans who cannot escape sure death if America fails to feed them now. Fayette County must do its share. All expenses of getting the food and medicine "over there" are paid outside the general fund.

MARIETTA HELD TO LOW SCORE

Fast Marietta Five Forced To Go At Top Speed in Downing Washington High.

Fighting to the last minute Washington High School went down in honor playing that Marietta held the lead at

the finish. Marietta was the first to score after two minutes of play. With the score 10 to 7 in favor of Marietta Carroll Flee was forced to retire from the game because of a slight injury and his place was taken by Frank Beck.

But on one or two occasions this season as the Marietta team been forced to travel as fast in order to win as it did Friday evening. Although leading all the way by a margin that looked safe it was only by most clever

players hardly leaving their set positions on the floor.

Washington was trailing a 16 to 9 score when the first half was ended.

The Blue and White fought the Gold and Black of Marietta to the finish in the second period and both teams scored practically the same number of points. Washington made nine and Marietta collected ten. But the lead that the visitors had gained in the first half could not be headed because of Marietta's team work which was exceptional.

Coach Hayes of McClain High at Greenfield and the McClain basketball team saw the game and rooted energetically for Marietta. Coach Hayes' home is at Marietta and he was a member of the Marietta team when it held the state championship a few years ago.

The Marietta team left for Columbus where it will meet one of the Columbus high schools Friday evening. Marietta again has hopes of a state championship.

The Store-house of Time

What has been the greatest factor in the world's development?

Books.

For they are the store-house of ideas. By recording the thoughts, the events, the discoveries of one generation, they have made it possible for each succeeding generation to take the next step forward.

The inventions of science, the theories of philosophy, the principles of religion, the very laws and conventions under which we live and work are the product of the ages that preceded us, preserved and immortalized by the written word.

Evolution is continuous. Step by step each generation rises a little higher, profiting by the wisdom and experience of the great minds that preceded it. A Franklin "discovered" electricity. An Edison mastered electricity, making it subservient to man's bidding.

Books are the record of the ages—the bridge between the chasm of the past and the present—the milestones on the Road of Progress.

If you are not reading, you are not advancing. You are missing step with forward march. You are shutting your eyes to the greatest thinkers of the ages—to the treasures in the store-house of Time itself.—Chicago Daily News.

**LETTER BRINGS
FINAL APPEAL
FOR STARVING**

The following letter, which is self explanatory, has been received by the Fayette County War Orphans Relief Committee. It was written in the hope that the message which it bears would be an incentive to those with whom the success of the appeal in this county is resting.

It follows:

Mr. D. S. Craig, Chairman,
Washington C. H., Ohio

Gentlemen of the Committee:

You ask me my reasons for going into the Child Feeding Fund. Just think what a fine thing it is to live under our form of government; to be born and live in Fayette county, Ohio, U. S. A. Always plenty—plenty for all and help the other fellow a little. Then it makes a market for our farm products, at present over supplied. Again, those women and children are in no way responsible for their present condition, but they are the potentials of future generations which we must have to consume our factory and farm products. Again after I read Herbert Hoover's appeal early in last November. I just could not get it out of my system until I unbuckled some.

It certainly is grand in you gentlemen to take your money and time. My obligation ends and yours begins when I hand you my check. In regard to the people of Fayette County, of whom I am very proud, I should suggest that nearly every one could give something, butter, eggs, chickens, corn, wheat, oats, rye, pigs, calves, colts, War Saving Stamps, Liberty Bonds, money.

Gentlemen, I am with you and for you.

Respectfully yours
CHAS. PERSINGER

Out Of Line

We have nothing but condemnation for the men, in any line, who seek to reduce production as a means of keeping prices up. Producers who adopt that course now are in the same position exactly as were the workers who, during stress of public necessity in pre-war and war times, sought to bludgeon employers out of unheard-of high wages for half work, by creating a shortage of labor.

In fact there was more excuse for them than there is now for those employers and producers who seek to cut down production. As a rule the wage earner depends upon his daily toil to obtain money to live. As a rule he has nothing ahead. Sometimes that is the cause of the individual and sometimes it is the cause of conditions. But, no matter what the cause, it is a fact indisputable.

The producers, as a rule, are not facing such an immediate necessity. They, generally, have enough to turn around and look about when a crisis presents itself.

We have been told all during the era of high and rising prices that greater production would solve the problem and bring prices down to normal, or near normal, levels and we endured with the hope that the promised change for the better would come. We were told that the only hope of lower prices was more production and that more production would come with labor more plentiful and not demanding so high a wage.

Labor has become more plentiful and the wages are falling, and they should fall. Prices of many, many commodities have registered substantial drops. The great majority of producers have accepted gladly the changed conditions and are earnestly joining in the effort to bring still lower prices and greater quantity of production.

All too frequently, however, we hear of some producers who urge slowing up on production to keep prices up.

That's unfair and absolutely unjust. It is a monopolistic tendency that is abhorrent to our sense of justice and should be discomfited by all good citizens.

No matter what the particular line of activity, every American should proceed to the limit of his capacity with production and permit the law of supply and demand, so long disturbed by unusual conditions, to resume its dominion over commercial affairs. Then the reconstructive work will soon be accomplished.

It is impossible to have the other fellows do all of the reducing in price. Everyone must do his own part fairly by producing just as much as possible and by absolutely scorning to resort to any unfair means which will secure him an advantage over his fellow men.

People who undertake now to interfere with the orderly processes of readjustment are all out of line.

A Wonderful Winter

We wonder if everybody realizes what a boon the mild winter now drawing to its end, has been. We are all so inclined to take things for granted and as they come that it is doubtful whether many of us stop to count up the blessings of a winter akin to spring.

In this time of high priced and scanty coal supply the high temperature has contributed generally, both to the comfort of the body and the fatness of the pocketbook.

Can the "oldest inhabitant" remember a winter with so much sunshine? for this we should all give thanks—a bright wintry sky and enveloping sunshine go a long way towards keeping up the spirits, just as the dark, gloomy days depress and sadden.

Also the direct, physical effect of the sun's rays upon human tissues is cleansing, healing and rebuilding.

Health and happiness go hand in hand with the clear skies and warm days which have been so unusually frequent this winter and we all ought to erect a memory tablet in gratitude to the winter of 1921.

POETRY FOR TODAY

WHAT IS BEHIND?

What is behind this quiet street,
This moon, this field of golden wheat,
These figures, passing to and fro,
This wind, that sighs in whispers low,
This swallow, flying far and fleet?

And back of every muffled beat
Of hearts that endlessly repeat
Longing for things no mortals know
What is behind?

Bird songs with melody replete
And odors blown from garden sweet,
And love, that man and beast bestow
In selfish sacrifices, show
That each day, all unguessed, we greet

Yesterday morning about eleven o'clock the five room frame house owned by Mart Gray in the north eastern section of the English addition was completely destroyed by fire together with nearly all the household goods and family clothing.

But little was saved from the house as it burned rapidly and until the arrival of the fire fighters there were very few men about the neighborhood nearly all being away at work.

Good Health

Your Greatest Treasure

At this time of year one must protect their good health or seek to quickly win it back. The little cough, the slight cold, may lead to grip or flu. The run-down system needs tuning up. Hard foods clog the system. Keep a clear head, nose, throat; keep the bowels cleared; that's the best way to protect yourself. But in case of serious illness or symptoms, call the doctor.

Destroy Germs By Spraying

Just as spraying bushes, trees, even animals, destroy germs, growths, etc., so spraying the throat and nose protects against germ infections and contagion. Ninety per cent. of all colds and illness enter the mouth and throat. If these are kept clean and germless, health is almost certain. Every home should have one or more atomizers for oils or aqueous solutions. We carry bulbs too, in case yours has lost its punch.

CLEVER CROOK VISITS CITY

Hardware Stores on Lookout for Bogus Salesman Who Worked Clever Trick for \$6.50.

Hardware stores of this city are on guard against one of the cleverest crooks that ever struck town.

One day this week a dapper looking man, supposed to be a salesman, stopped in the W. S. Fogle Hardware Store on North Fayette street, at the noon hour while Mr. Fogle was in charge.

He represented himself as an advance agent for a construction company which was to erect one hundred houses here and said that he would like to leave an order for some paint. The order was taken and he promised that the next day another man would arrive and place an order for locks and hinges.

Just before he left he declared that he had been in the store before and had purchased a can of varnish which he would not be able to use and he asked that the purchase price be refunded. He received \$5.50 for the varnish. It was not until some time later it became known that he had taken a can from the shelves and sold it back over the counter.

Mr. Fogle immediately reported the case to the police and the other hardware stores were notified to be on their guard.

The "salesman" was described as a neat appearing fellow, apparently well educated and with a smooth line of talk.

URGES YOUTHS TO ENLIST IN GUARD COMPANY

A prominent local citizen, who like a great many others is deeply interested in obtain a guard company and Armory for this city, has contributed the following article urging young men to enlist in the company and pointing out some of the advantages to such young men:

"It is the young men approaching the serious problems of life that should be most interested in joining the National Guard. Those who have as yet no fixed establishment in life, those whose education yet lacks the last touches before taking up the burdens of life work.

"It is an error to assume a period of enlistment is lost time, for with every passing effort it can be made productive of much good and afford the best of training and teaches an observance of many of the business laws that must be followed if one is to succeed. Time was when a membership in a military company was the evidence of much license and indulgence in liberties. However, time has changed all this until now it is not unlike entering a special school, one that plays no favorites and where merit brings its reward.

"First a young man must be physically fit or subject to sue improvement as to make him so by the result of rational exercise. Every boy must do his part rather than in athletic sports when few are active while the rest remain on the cheering

COUNTY OFFICIALS PLAN COOPERATION IN WORKING ROADS

More co-operative methods in working the roads of Fayette county were planned Thursday when the forty road officials of the ten townships, the county commissioners and road superintendents, held their yearly meeting, presided over by County Surveyor Frank M. Kennedy.

At the noon hour the officials were the guests for lunch of Commissioner Howard Hagler with the Dutch Treat Club.

It was pointed out during the discussion of the meeting that the township roads of the county are the chief ones which cause complaint at this time of the year and that the county roads are bearing up very well under the heavy traffic in the worst season.

To facilitate the improvements needed and which the different officials will place under way an arrangement was made whereby the townships will trade machinery and exchange road implements.

The need of more road rollers was also presented to the officials.

Among those who delivered talks in addition to County Surveyor Kennedy, County Commissioners, Howard Hagler, John Browning and Elmer Jank, were Howard C. Allen, Secretary of the Fayette Auto Club; Albert Armstrong Charles Hoppes, Jess R. Hoppes, W. H. Skinner, A. C. Zimmerman, John Sharp, John Cotton, Oliver Baughn, A. B. Johnson, O. A. YOUTH IS SHOT BLAMES BURGLAR

As result of a rifle wound not far from heart, John Smith, Wilmington youth, is in the hospital in that town in a serious condition with fair chances of recovery.

The young man says that when he entered his home a night or two ago a burglar was in the house and seized a rifle, firing point blank at him, the ball striking him in the left side.

No trace of the intruder could be found.

Dressmaker Gives Advice

"I underwent a surgical operation for gall stones 5 years ago, was in the hospital 4 weeks. For 1 year I felt better, but then my old symptoms and pains returned, and I have suffered ever since. Four weeks ago on the advice of a lady I tried May's Wonderful Remedy, and I now feel like a new woman. I have a number of friends who suffer as I did and I am advising all to try this valuable medicine." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Blackmer & Tanquary, Frank Christopher and druggists everywhere.—Advt.

**LIGHT STANDARDS
ARE SHATTERED
THURSDAY NIGHT**

The rain and snow Thursday evening, coupled with the fact that red danger lights were not displayed on the traffic posts, resulted in the three posts on Court street being struck and either ruined or damaged by automobiles, with in a period of thirty minutes.

A Ford machine struck the one at the intersection of Main and Court streets, and a larger machine hit the one at Fayette and Court, carrying it entirely from its base and virtually ruining it.

A third car struck the one on Court and North streets and it was left leaning badly. In each instance the machines were damaged, one being so badly battered that it was necessary to take it to the shop.

The rain and snow on the windshields almost blinded the drivers of automobiles, particularly if another machine was approaching.

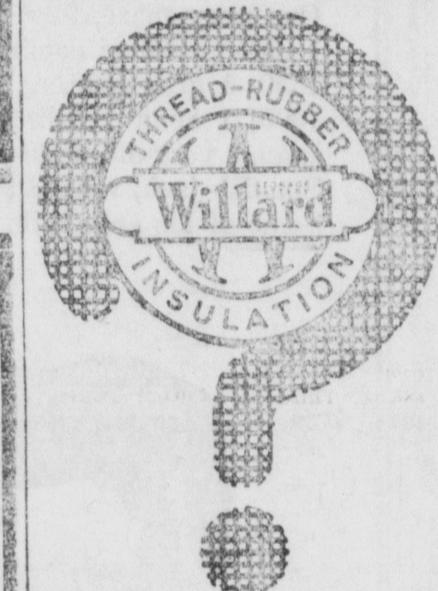

It has been suggested that when the traffic posts are replaced they be equipped with proper red lights and that the black body of the posts be painted with white stripes to make them more conspicuous.

**SNOW SURPRISE
IN THIS LOCALITY**

The snow on Thursday night was rather a surprise to most citizens, and even the weather man was not expecting the blanket of snow to extend so far south in Ohio.

The snow reached a depth of two to three inches by daybreak Friday and continued to fall well into the day.

That the public schools of this city have done their share towards the War Orphan Relief Fund is shown in a report given out by Superintendent McClain, Friday.

In addition to the \$181.31 donated to the fund by the grades the high school gave \$170.50. The total for the schools stands at \$351.80.

When the appeal was first made to the high school \$100 was asked. This amount was raised in short time.

Another appeal was sent out by the relief workers and the student body was asked to support another orphan until spring by giving the sum of \$10.

Instead of \$40 the final report was

\$70.50.

Each class contributed as follows:

Freshmen, \$28.20; Sophomore \$9.00;

Junior, 23.30; Senior, 10.00.
